Mr. and Mrs. A. F. Wood of Academy Street, Danielson, are winners of the second award for French. This excellent record of the two local young men, both graduates of Killingly high school, is very pleasing to their many friends here.

OCTOBER WAS DRY.

Total Precipitation for the Month 1.57 Inches—Nineteen Clear Days.

Very high and quite low temperatures were registered during October. It is shown by the records kept at the government observatory in Hartford that the maximum of 59 degrees was reached on the 25th and 26th, when the readings were noted on the 15th and 16th, 23 degrees. The greatest daily range was 45 degrees, on the 4th. The total precipitation for the month was 1.57 inches.

To Issue Additional Stock. A certificate of issue of additional shares of capital stock has been filed by the Rink-Pink company of Hartford, through John B. Hall, Harry B. Back (Danielson), and Edward Redfield, a majority of the directors. The directors were empowered to issue 1,000 shares, of which 721 shares have been issued, and a balance of 279.

There was no circulation Friday what seemed to be a wild-cat story of a plan to have the Brooklyn Electric (West) plant in Connecticut. He is to have charge of the bond department.

STILL CHECKING UP BOOKS.

Six Persons Busy at Windham County Savings Bank.

Six persons are now engaged in checking up the cash books of the Windham County Savings bank, which has temporarily suspended business. There are 25 of these books, and the checkers will not average an inspection of more than three a week, so laborious is the task with which they are confronted. It is estimated that the review of all the records of the institution will not be completed within the four months for which the bank was closed, this period ending early in December, so another extension of the closed period may be looked for. There is every indication, however, it is stated at the bank, that the checking up process that has been underway since August will show results by the end of the year.

WILL HEAR RETURNS EARLY.

The people of Danielson will have little difficulty in getting election returns next Tuesday night. Besides the private return service that has been arranged, the theaters will keep the patrons posted on what has happened throughout the country as fast as the bulletins are received here. There is apparently more interest in the outcome of the local election than in any for many years.

Bells and Steeple. The church spire at Shaftest, Isle of Wight, is now being pulled down. There is a curious couplet relating to this spire which runs: "The Shaftest poor and silly people sold their bells to build a steeple." And the local tradition is that about a century ago, when the building of steeples was the fashion, the parishioners sold the bell of bells which hung in the fine old square Norman tower to the inmates of a French monastery and with the money this obtained erected a steeple on top of the tower. The erection has been an eyeore to archaeologists ever since, and much has been written depicting its existence, but the parishioners have been satisfied with their steeple until just recently, when it was discovered that it was in a very dangerous state, and was seriously damaging the old tower beneath. It has therefore been decided to pull down the structure and an urgent appeal is being made for funds to remove it and to renovate the ancient tower—London Standard.

When I had the privilege of attending the Episcopal convention at Chicago in 1885, writes Mrs. Lewis, to extend the knowledge of our three homes for British and American young women, and of placing our work for them before the bishops, several of whom had visited our homes, I held meetings at which their presence and had the pleasure of interesting Mrs. Whitelaw Reid in New York.

Whitelaw Reid was called to the post of ambassador to France; Mrs. Whitelaw Reid sought out the spot which no one had touched and the need was great amongst her own young countrywomen in the student quarters of Paris.

After 20 years of successful working the American girls' club is being enlarged with every modern convenience, guided by the quiet and unobtrusive generosity of its honored founder, whose name will be a household word as long as the American student is traced to Paris.
